EMPLOYMENT HISTORY

Full stack developer presso Dedalus S.p.A., Italy

2015 — Present

Over the years at Dedalus I have worked on various projects that have seen me engaged in different roles:

- Full stack developer on primary care software. Technologies used: Java, AngularJS, PostgreSQL, Tomcat.
- Software analyst on a project commissioned by NATO.
- Full stack developer on web management. Technologies used: Wordpress, PHP.
- Full stack developer on a medical device for the automated preparation of chemotherapy drugs. Technologies used: Java, AngularJS, Angular, PostgreSQL, Tomcat.

Internship at Sicilia Sistemi Tecnologie S.r.l., Italy

Ago 2014 — Nov 2014

Developer in Java SE environment of an expert system for the automatic classification of pathological anatomy reports using NLP (Natural Language Processing) algorithms.

EXTRA-CURRICULAR ACTIVITIES

Founder Track4Fit

2021

Track4Fit is a platform for 360° client management for figures such as personal trainers and nutritionists. Client management goes through a series of ad hoc functions such as anamnesis, training or diet plan management, document collection and feedback cycle.

Technologies used: PHP, Node.js, React, MySQL, Firebase.

Sommelier at F.I.S.

2021 — 2023

Training and specialization course in the role of Sommelier at the headquarters of the Italian Sommelier Foundation of Catania, with attestation of recognition from the World Sommelier Association.

☺ HOBBIES ☺

Sports; Trekking; Wine
tasting; Playing the piano;
Reading

Member at AIESEC, Catania

2015 — 2016

I took part in two AIESEC projects. I was in charge of managing those who decided to join the projects planned by the AIESEC headquarters in Catania. I took part in the following projects:

- *Discovery project*, whose aim was to sponsor Sicily through multimedia content, created thanks to internships from different countries around the world.
- *Share your summer*, whose aim was to organize a partnership between structures such as beach resorts and kids from all over the world with the aim of creating a cultural exchange between foreign kids who play the role of entertainers and the users of the beach resorts.
